

## MFC TRANSPORT PVT LTD – CASE STUDY – IOCL HALDIA – ODC & ODW CARGO INNOVATION AND SOLUTION ORIENTED LOGISTIC SERVICE PROVIDER

- MFC's handling of IOCL reactors at Haldia, weighing 560 & 490 metric ton.
- The job entailed a detailed 106 days of brain storming, resulting in meticulous planning to synchronize perfect harmony of all activities like the strengthening of the road shoulders, supporting weak bridges, shutdown of the electrical & railway overhead lines, coordinating with government officials and providing support services ensured the smooth movement of the consignments in just 17 hours.
- This makes MFC one of the top ODC players and a one stop solution provider for handling 600 metric ton load across the country.
